

PARTNER PROGRAM

WHO IS SANGOMA

Sangoma Technologies Corporation is a trusted leader in delivering globally scalable Voice-Over-IP telephony systems. Serving customers in over 150 countries, Sangoma delivers the industry's best engineered Unified Communications solutions. Our products are backed by decades of IP communications experience, and comprehensive warranties.

As the communication landscape evolves and businesses invest in new strategies to provide effective communications, Sangoma Technologies is your trusted partner; delivering Unified Communications solutions for SMBs, Enterprises, OEMs, Carriers, and service providers.

Sangoma's globally scalable offerings include both on-site and cloud-based business communication systems, SIP trunking, IP Phones, Gateways, Session Border Controllers and Telecom Interface Cards. Together, these provide seamless connectivity between traditional infrastructure and new technologies. Businesses can achieve enhanced levels of collaboration, productivity, and ROI by partnering with Sangoma.

Founded in 1984, Sangoma Technologies Corporation is publicly traded on the TSX Venture Exchange (TSX VENTURE: STC).

PARTNER LEVELS

Grow with us as you grow your business, delivering superior solutions

Authorized Agent

Authorized Agent is for the partner that is focused only on cloud-based sales and has no real interest in on-premise solutions. This level requires no minimum yearly commitment, and only online training is required.

Authorized Partner

Authorized Partner is for those that are interested in selling both the products and services that Sangoma offers for both cloud and on-premise. This level requires no minimum yearly commitment, and only online training is required.

Silver Partners

Silver Partners receive better discounts in return for a minimum sales commitment. Silver Partners are also required to complete both online and classroom training. This provides a more thorough understanding of Sangoma's UC Solutions.

Gold Partners

Gold Partners have made a higher minimum sales commitment, and have invested in additional training, ensuring they are a top-level UC provider and a true consulting partner to their clients. This grants them the best discounts.

Exceptional Margins

Sell products and services that match your expertise and grow your business with us. As your sales volume grows, so does your discount and your profits.

Total Solutions

As a Sangoma partner, you will have access to resell all of our solutions. From the latest cloud-based solutions, to gateways, to telephones and more. When you're a Sangoma partner, you're connected to all of our solutions.

Sangoma University

Become Sangoma and PBXact certified. We give partners the ability to set themselves apart from the competition by pursuing certification levels that show just how much you have invested with our partnership.

Exclusive Portal

Online access to the full product catalogue, ordering, customizable marketing resources and more.

TOTAL SOLUTION COMPANY

Designed for the Complete Solution

As an Empowered by Sangoma Partner grow your business by selling Sangoma products which are all designed to work together. From our on-premise or cloud-based IP-PBX phone systems and SIP Trunking service, to our complete line of VoIP Gateways, session border controllers (SBC) and telephony cards, your customers can continue to buy from you as they scale.

SIPSTATION SIP TRUNKING & FAXSTATION

Sell our SIP Trunking & FAXStation service to grow your revenue streams. SIPStation provides Canadian and USA small-to-medium businesses with feature-rich telephony service using a standard internet connection. With immediate activation process and built-in auto-provisioning for PBXact and FreePBX systems your customers are up and running within minutes. Sangoma's Wholesale SIP Trunking provides the coverage and competitive pricing that the 'large telcos' offer without the contracts and hassle. With an endless DID warehouse, built in management tools, and the most aggressive wholesale rates on carrier services in the industry, Sangoma is your leading wholesale SIP Trunk provider. FAXStation is Sangoma's error-free fax service, designed to address the T.38 fax limitations, providing your customers with the most reliable and secure Fax-over-IP (FoIP) solution on the market*.

SESSION BORDER CONTROLLERS

Sell our line of trusted SBCs helping your customers not only protect their businesses from VoIP threats, but provide them with interoperability, transcoding and SIP Trunking capabilities. Offered in both hardware and Virtual Machine options, your customers have many deployment choices and since the same software is used in both, there is no re-training required if they change, as they scale. Our SBC appliances are designed for SMBs and Carriers and with all features unlocked, making them very easy to sell.infrastructure.

HIGH DENSITY AND SS7 GATEWAYS

Provide value added services to large enterprises and Carriers with our high density PRI and SS7 Gateways. Supporting ISDN, SS7 CAS (R2), SIP, and SIGTRAN signaling protocols our all-in-one appliances have proven field interoperable.

TELEPHONY CARDS

Sangoma's award winning Analog, E1 and T1, and BRI telephony cards (or PSTN Cards) are powering the world's leading PBX, IVR and call-center applications. Renown for their premium quality and dependability, Sangoma's telephony cards are also the most flexible on the market, with superior compatibility in most commercially available servers and motherboards. They are the #1 choice amongst Asterisk, FreePBX, SS7 and Voice API integrators with a wide range of protocol support including Analog, PRI, CAS MFCR2, SS7 and WAN protocols.

SANGOMA MEET

Sangoma Meet lets anyone start a video conference of up to 50 video participants on any device. Collaborate on projects while keeping in touch with your family and sharing some face-time with your colleagues and friends. Enjoy in-conference moderator privileges, chat, screen share, and password protected conferencing, so that only the people you want on your video call can join. In addition to access through desktop web browsers, Sangoma Meet integrates with Office365 and Google calendars and is compatible with iOS and Android phones and tablets.

VOIP GATEWAYS

As an Empowered by Sangoma Partners sell our complete line of VoIP Gateways designed for OEMs, integrators, SMBs and Carriers. Our gateways connect legacy infrastructures (analog, T1/E1, BRI) with VoIP networks. The intuitive GUI-based auto-Provisioning wizard gets your customers setup within minutes and its open design guarantees interoperability with most infrastructures.

*Note these products are currently offered only in North America and available to resell for North American based resellers only.

UNIFIED

COMMUNICATIONS

Sangoma offers complete, affordable UC solutions for small to mid-size businesses. They include advanced collaboration and productivity-enhancing features for every user. Sangoma's UC solutions can be deployed on-premise or in the Cloud, allowing businesses to select the best option for their needs. From the PBX to the phones to the mobile clients to the connectivity infrastructure, Sangoma's solutions fully integrate to provide a fully interoperable solution from one vendor.

CLLOUD-BASED PHONE SOLUTION

Choosing a cloud-based phone solution doesn't mean you have to sacrifice the features and flexibility of a full-scale UC solution. With Sangoma, you get a full contact center, mobility, call control and productivity included with every user for the same price. Sangoma's hosted phone service delivers the customer experience businesses demand at an affordable price point.

ON-PREMISE PHONE SOLUTION

If your business needs scalability, control and customization from a phone system that is loaded with advanced Unified Communication features, at an affordable price, then on-premise is the answer. Whether you are looking to deploy on a dedicated appliance equipped with state-of-the-art technology or in a virtual environment, Sangoma provided the necessary power and connectivity for any organization.

IP PHONES AND SOFTPHONES

s705 IP Phone

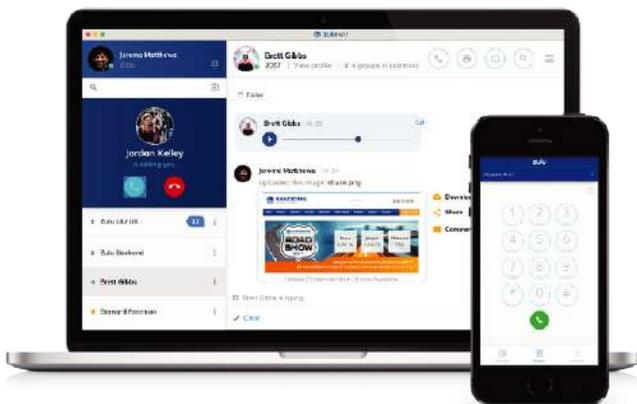

D80 IP Phone

H10 Headset

Sangoma's product line includes entry-level, mid-range, and executive level phones. All models include HD Voice and unprecedented plug-and-play deployment. Enhance your users' productivity with built-in advanced applications, including voicemail, call log, contacts, phone status, user presence, parking, and more. Our first headset, called the H10, is a monaural, over-the-head, wireless EHS-capable DECT headset designed specifically for both D-Series and S-Series IP phones. The H10 headset offers your customers complete freedom and flexibility away from their desk phones, while providing you a new revenue stream to sell into contact centers, real estate, and enterprises.

ZULU UC COLLABORATION AND SOFTPHONE CLIENT

Sangoma also has UC clients which are a set of server, desktop, and smartphone UC client software integrated with our UC solution offerings that delivers UC features (presence, contacts, chat, calling, audio and video conferencing, etc.) from a single application.

NETWORK

CONNECTIVITY

Sangoma offers a complete line of Session Border Controllers (SBCs), VoIP Gateways and telephony cards that enables communications solutions to connect to, and be protected from, different types of networks. Products ranging from just two port analog cards and gateways all the way to 2000 channels in a single appliance cover demands from the SMB, Enterprise, Call Centers, and service providers. The SBC portfolio also includes software versions for hosted/virtualized environments and the ability to mix legacy PSTN interconnections for enterprise networks in transition.

Vega and IMG VoIP Gateways

Sangoma's Vega Gateways allows you to keep your existing legacy infrastructure (Analog/T1/E1) and connect to VoIP Services, saving your business time and money. The IMG gateway family are carrier-specific products that enable a VoIP carrier to connect their network to the SS7 network for up to 2016 channels.

Simply connect our VoIP Gateways at the edge of your network and tap into the benefits of VoIP.

Session Border Controllers

Businesses connecting their infrastructure to a SIP Trunk, or VoIP connection, require a Session Border Controllers (SBC) for security, interoperability and transcoding.

A Sangoma SBC protects both your data and voice network and is designed to handle every aspect of phone calls that travel over the internet.

Telephony Cards

Sangoma's award winning Analog, E1 and T1, and BRI telephony cards (or PSTN Cards) are powering the world's leading PBX, IVR and call-center applications.

Sangoma's telephony cards, which also include the Dialogic suite of boards, are also the most flexible on the market, with superior compatibility.

SIP TRUNKING

SERVICE

SIPSTATION

SIPStation is Sangoma's SIP trunking service providing SMB's and large enterprises with feature-rich telephony services using a standard internet connection.

SIPStation SIP trunks allow businesses to obtain telephony services from a provider by using a simple internet connection instead of a traditional telecom link.

WHOLESALE SIP TRUNKING

Sangoma offers aggressive rates on carrier services and the largest DID network and coverage in North America. Enjoy access to more than a dozen Tier 1 Telecom providers in one place with built-in management tools that include Online Local Number Porting, SIP Trunk management, and much more.

Cost Savings

Guaranteed cost savings when switching from your traditional telephony provider to SIPStation.

Integrated Fax Services

IP based faxing that allows you to send and receive faxes from a web interface or from your local fax machine with incredible reliability.

International Calling, T.38 Faxing & SMS

SIPStation phone lines come ready with enhanced features, all managed through your SIPStation Store account.

Inbound Numbers and Porting

Add as many Inbound Numbers as you need (U.S and Canada only). You can also port your existing telephone numbers to Sangoma's service.
